KEEPING LIFE
WITHIN SIGHT

welcome

The Egyptian Society of Glaucoma is pleased to welcome you to the **23rd Annual Meeting** which is held on the **14th and 15th of December 2023** in Cairo, Egypt. Over the past 22 years the ESG has held its annual meeting giving the opportunity to those interested in glaucoma to learn, share knowledge, and bond.

This year we promise you a rich program that will cover the basic to advanced knowledge that will engage both the new specialists as well as the experienced consultants looking for tips and tricks to fine-tune their techniques. The program will include basic courses as well as thought-provoking symposia and surgical and clinical case presentations that will provide pearls of wisdom to ensure everyone who attends will leave with the best insights that will improve the care we give to our glaucoma patients. Additionally, the program will cover the latest technologies and advancements in glaucoma that will ensure all attendees get acquainted with the latest in glaucoma diagnosis and management.

We are very excited about the prospect of sharing the knowledge and experience with ESG attendees in the warm weather of Egypt in December, and we hope that it provides an exciting opportunity for everyone to explore the fascinating world of glaucoma.

President of ESG
Adel Abdel razik, MD, PhD
