# — WELCOME —

The Egyptian Society of Glaucoma (ESG) is pleased to welcome you in its **25<sup>th</sup> Annual Meeting**. Over the past 24 years the ESG has held its annual meeting giving the opportunity to those interested in glaucoma to learn, share knowledge, and bond.

We are excited this year to welcome 2 eminent world renowned glaucoma experts; **Professor Dr Tina Wong** of Singapore National Eye Center, Singapore and **Professor Sanjay Asrani** of Duke University, USA.

We promise you a rich program that will cover the basic to advanced knowledge engaging both the new specialists as well as the experienced looking for tips and tricks to fine-tune their techniques. The program includes hands-on wetlabs as well as thought-provoking symposia, surgical and clinical case presentations that will provide pearls of clinical knowledge and wisdom to ensure everyone who attends will leave with more knowledge that can improve the care we give to our glaucoma patients. Additionally, the program will cover some of the latest technologies and devices in glaucoma that will ensure all attendees get acquainted with the latest in glaucoma diagnosis and management.

We are very excited about the prospect of sharing the knowledge and experience with ESG attendees in the warm weather of Egypt in October, and we hope that it provides an exciting opportunity for everyone to explore the fascinating world of glaucoma.

President of ESG  
**Adel Abdel razik, MD, PhD**
